TRIAL OF SEARLES!

Secretary of the Sugar Trust
Condemns Acquittal.

the Santa Fe Road to Materially
Shorten Its Time.

SNACKS Eaten in Several Places
in New York State.

BUREAU SETTLES HIS SHORTAGE.

May 28.—The trial of the
secretary of the Sugar Trust,
followed by his acquittal, in Judge
Haveney's court was similar to the one
that was held in the case of the
secretary of the Sugar Trust, who ap-
peared before the same lawyers who ap-
peared before Haveney had charge of the
case. Members of the senate
committee and other dis-
cussions were present.

Attorney Davis asked that in
that the trial was not concluded
before he saw no reason why
it should not be adjourned un-
til the counsel for the defense
had agreed.

The first twelve jurors were
selected, but one was excused. The
jurors of the defendant's counsel
agreed that the jury should be taken out of the hands
of the defense, and the defense
will take the trial and order acquittal.

After the trial of the case against
the defense moved that the
trial be brought to a verdict
on three grounds, and argued.

Time shortened.
May 28.—On Sunday important
cases will be made in the time
by the end of the day, and
by the time of the transmission of eastern
matter for points in Arizona,
New Mexico, Oregon and California.

Attorneys pay up.
May 28.—Bradford K. Durfee,
state superintendent of insurance under
date of August, who has been accused of
being a \$2,000 short, does not owe the
state a cent, according to State Super-
intendent of Insurance Van Cleave. Dur-
fee remitted from office May 5th, all of
what he since has paid. Durfee was
to dispose of all his taxable prop-
erty at mechanical prices in order to square
his accounts. Governor Allred denies
he was a borrower from Durfee.

Earthquake shock.
May 28.—An earth-
quake lasting about forty-five seconds
occurred here last night. Reports from
El Paso and Ciudad Roca indicate that
the shock was felt throughout the Cham-
pion Valley. No damage is reported.

On account of Memorial day falling on
Sunday, the banks, in order to properly
observe the day will be closed. It must
not be forgotten that to-morrow being
Saturday, the banks will close at noon
hour.

The Stage of the River.
The river is falling now, and the flood
is supposed to have reached its highest
point for the season. No damage of any
consequence has been done in this

county, though a report was current this
afternoon that the river had cut away the
bank above the town of Atrisco and was
running down the old channel in the
direction of Pajarito. Sheriff Hubbell
went down to the break and thinks no
serious damage will result.

Later the river is again rising, and
there is danger that the valley across the
river will be inundated.

Here from the West.

Testimony-taking in the suit of the
Rocky Mts. Coal company case, which
commenced in this city a few days ago,
still continues before Special Master A.
R. Readling, at the office of the law firm
of the Atlantic & Pacific.

The following witnesses reached the
city yesterday: R. A. Bowes, W. W.
McMahon, and George H. Pratico of Laguna,
and E. O. Chapman of Tramita.

The title of the case is that of Stephen
Cavanagh, complainant, vs. Frank Dugan,
and in which case C. W. Medler has been
operating the rocks cliff coal mine as
receiver. The facts of the suit were pub-
lished in *THE CITIZEN* of May 21.

HAVOC AT EL PASO.

Rio Grande Floods Nine Hundred
Homes in That City.

THE LOSSES EXTENSIVE.

The overflow of the Rio Grande the
past few days have almost ruined the
lower portion of the city of El Paso. The
danger is now over, but the Pass City has
had a bad experience that it will not soon
forget. All the lower portion of the
city, built principally of adobe, was
flooded and the houses tumbled down,
presenting a scene of utter desolation
and ruin. The losses of yesterday say:

During the night fully one hundred
and twenty adobe houses have been
wrecked by the waters and people
had to leave to do anything without
pay, even to save their own homes, be-
gan to realize that they were in trouble
and would have to act and act quickly.

Mr. Powers demanded that Chapman
specify his charges, that the whole sum should
not be subject to his sweeping asser-
tions.

Chapman said that the present tariff bill
was to be taken off the books of the sugar
trust with no connection by telephone
and telegraph with New York and in
close touch with the sugar trust magnates.

Chapman closed with the declaration that
the state should either prove that the cor-
respondents failed or prove that the sen-
ators were corrupt, and then turn them out.

Chapman denied that any person con-
nected with the sugar trust had anyth-
ing to do with making the sugar
shambles. No person except the rep-
resentatives of the Crown Point mine, and he
stated that a car load of ore from this
mine was shipped to the Pueblo, Colo-
rado, just before the big rise in the
tariff bill.

He reported S. P. Mahan, who is work-
ing the Alton on a hundred lease for
Leverett Clark, a capitalist, rushing
matters and giving employment to
twelve fifteen men. The usual force
of men are at work on the Lone Star and
from fourteen to sixteen men are at
the Washington. Washington is a
car load of ore for shipment as soon as
the river is low enough to be loaded
with safety. W. D. Howard, with a force
of men are re-inforcing the blind and
Messes. McPherson, Peck and others,
owners of the mill, will soon add a new
process.

In regard to the rumor here that some
court several claims had been jumped in
the Cochiti district Mr. Johnson said he
had not heard of such actions while he
was at the camp, and thought that the
report was put in circulation for mal-
icious purposes.

Mr. Johnson also stated that the road
through Pine canyon, from Alberto to
the coast, was in good condition, to allow
the passage of wagons, and was seen to be
in good condition, and that Arizona had
seen to the repair of the road.

He reported that the road through
